

Hi Joyce! Here are the dates/times for the Brain Gym and BOP in June. Hope all's well. Feel free to pass on to friends/colleagues. Am still looking forward to tea sometime! :)

Love and Light, Georgia

Brain Gym: Whole Brain Integration Through Movement

Description: Brain Gym, created by Paul E. Dennison, Ph.D., and an integral part of Educational Kinesiology, is a series of simple, specifically conceived, enjoyable movements that enhance the learning experience, foster whole brain integration, and provide stress reduction. Participants learn 26 targeted activities, and when and how to use them. They learn a number of balances which focus on specific goals. Through movements in the balancing process, the brain-body system neurologically reorganizes, relieving stress patterns, and allowing new and/or more effective choices to be made in relation to the goals. When action originates from the balanced whole brain, greater potential is realized. For a more in-depth explanation, please refer to the Educational Kinesiology Foundation web site: www.braingym.org

Level: This course is appropriate for teachers and specialists. It is also applicable for parents and other child-related professionals and counselors.

Instructor: Georgia McFadden, M.A., is a First Grade Teacher in the Tigard-Tualatin School District. She is a Certified Brain Gym Instructor, Brain Organization Profiles Instructor, Edu-K Consultant and is professional member of the Educational Kinesiology Foundation.

Location: Durham Elementary School **Dates:** Monday-Friday
8048 S.W. Shaffer Lane June 16th-20th
Tigard, OR 97224 **Time:** 8:30 a.m. to 3:30 p.m. daily

Brain Organization Profiles

Description: Brain Organization Profiles provides a new understanding and appreciation of our own uniqueness and the special ways we function in the world. It is invaluable information for educators and other professionals, as our Brain Dominance Profiles indicate our sensory and brain preferences and their implications to our learning and daily life activities. The Educational Kinesiology processes that you will learn will offer the opportunity to access all sensory channels in order to use all modalities, bringing integration and full resources to new learning situations. Prerequisite: Brain Gym Course
Educational Kinesiology Foundation web site: www.braingym.org

Level: This course is appropriate for teachers and specialists. It is also applicable for parents and other child-related professionals and counselors.
