

Welcome to the MESD Budget Dashboard!

The budget dashboard is an online tool to review the Proposed Budget in more detail than the published budget document. In it, you can filter by department and division and see budget and actuals down to the object (account) level.

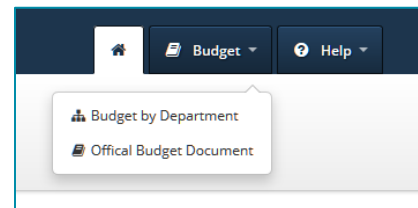

Website: <https://budget.apps.mesd.k12.or.us/>

Note: In order to improve accessibility, there is no longer a user name and password required to access the dashboard.
