**Non Medical Immunization Exemption Certificate requests at
the School Based Health Centers.**

Parents and guardians requesting to exempt students from school required immunizations can either watch a video online or be counseled by a Provider.

Those seeking counseling should be directed to their Primary Care Provider (PCP). This ensures that the PCP knows their client has not received the vaccines and as their PCP gives them an opportunity to counsel them.

Parent/Guardians can get the counseling required at a SBHC if they:

Are unable to get to their PCP

They don't have a PCP

Their PCP is the School Based Health Center

Parents/Guardians can be directed to call and make an appointment for immunization counseling at one of the School Based Health Centers.
